Libraries: pandas, NumPy, Matplotlib, Threejs, csv, sklearn

EXPERIENCE

RA-CSR-SAP Intern — April 2024 - May 2024
Deloitte Pune
- Research work on sustainability and its policies around organisations.
- Skills - ABAP and SAP SmartForms

PROJECTS

CSV Utility | *ReactJS, NodeJS, ExpressJS, Flask* — Feb 2024
- Developed a full-stack framework enabling users to perform custom manipulations on large CSV files.
- The framework employs parallel processing, GitHub integration and layers of error detection.
- Seamless User Experience.
- **Github** | https://github.com/shrinidhib/csv-utility

EduBuddy | *ReactJS, NodeJS, ExpressJS, Socket.io, MongoDB* — Jan 2024 - April 2024
- Developed a Fullstack web application to facilitate educators and learners to collaborate.
- Created 'create test', 'take test', 'take notes', 'upload' and 'watch videos' functionality with a fully functioning real time discussiion forum.
- Implemented Authentication and Authorization for both frontend and backend.
- **Github** | https://github.com/shrinidhib/edu-platform

ShopSnap - Social Shopping media | *Neo4j, ReactJS, NodeJS, ExpressJS, Flask, Firebase, ML* — July 2024
- Engineered a comprehensive full-stack social application that fosters interaction between customers and influencers
- The platform features post creation for influencers, trend detection and recommendations, personalized suggestions, and enhances sales conversion rates.
- Leveraged graph database to enhance user experience and employed version control practices
- **Github** | https://github.com/Akankshavdixit/ShopSnap

Credenz Website | *ReactJS, React Three Fiber, Three JS* — Mar 2024 - April 2024
- Developed a 3D immersive landing page for annual tech fest of PICT IEEE STUDENT BRANCH (PISB).
- Designed and Implemented animation and immersive storyline for an underwater themed website.
